

Oliver Madge C-Biol – Profile

Tel: 07774 200400

January 2013 – Present	PestWise.org	Consultant
------------------------	--------------	------------

PestWise was established to support users of pesticides, those who are responsible for the management and control of pests, including pest service companies and end-users who purchase their services.

Delivering integrated learning modules for pest management and health and safety, including e-learning courses and verification; practical assessments / verification and onsite workshop delivery.

Primary services include:

- Training, education and continual development (CPD);
- Audits and impact assessments, based on pest risk (either actual or potential);
- Site-troubleshooting and problem solving specialist;
- Expert witness and technical consultant;
- Risk & safety management;
- Product consultancy.

Jan 2010 - Jan 2013	Bed Bug Foundation	Trustee and Founder
---------------------	--------------------	---------------------

Aims and responsibilities:

Raise the awareness of this growing risk and the skills of those who are contracted to control infestations in commercial and residential situations. Providing information and advice to home-owners and business to help combat the stigma, financial and emotional cost that bed bugs can bring.

Lead Author of the European Code of Practice, now in 3rd edition.

Foundation now being administered and run by Richard Naylor and has expanded to include Canine training and certification.

April 2006 – Jan 2010	British Pest Control Association	CEO
-----------------------	----------------------------------	-----

Aims and responsibilities as CEO:

Liaising with UK and European government departments for understanding and implementing legislation; primarily where an impact on service delivery, health and safety or codes of best practice may be affected.

Developing strategies; included working groups such as British Retail Consortium (BRC), Local Authority EHO's; British Standards Institute (BSi); sector skills councils and qualification awarding bodies.

Jan 2005 – April 2006	200400 Services	Director
-----------------------	-----------------	----------

200400 delivered education and staff development around the three ISO systems of quality (9001), environmental (14001) and health & safety (OHSAS 18001).

Services included staff inductions, assessments, on-going development (CPD) and hands-on competence for sales, service and administration staff to ensure that all members of a business work competently and cohesively.

Health and Safety consultant – assessing operations, agreeing procedures and implementing documentation within service business operations.

April 2001 – Jan 2005	Enviroguard Limited	Technical Safety Manager
-----------------------	---------------------	--------------------------

Responsibilities included staff development and CPD; implementation of Health and Safety (OHSAS 18001) standards and specification developments for bird proofing division.

Duties also covered contract management and sales growth with larger customers, including Royal Mail; Sodexo; ISS-FM. Marketing and company profiling for service standards.

Pre 2001 information available on request.
